Subject: Certification of Conformance to the Buy American Provision of the American Recovery and Reinvestment Act (ARRA) of 2009

At Harbor Steel & Supply Corporation, we respect your desire to buy American made products and appreciate your support of the American workforce.

This letter serves as conformance certification for the Section 1605 Buy American Provision of the American Recovery and Reinvestment Act (ARRA) of 2009. The Buy American Provision requires the use of construction materials manufactured in the United States in ARRA funded projects.

Harbor Steel & Supply Corporation (with divisions located in Muskegon, Holland and Manistee, Michigan; Lexington, Kentucky; and Prichard, West Virginia) hereby certifies that the ferrous and non-ferrous metals supplied for a customer quotation requiring ARRA 2009, Section 1605 compliance, meet the requirements and are *Made in America*.

Per customer request, Harbor Steel & Supply Corporation can provide you the associated material certifications from the source mills as evidence that the quoted material is indeed melted and manufactured in the United States.

Sincerely,

Greg Viau

Director of Quality and Safety

Harbor Steel & Supply Corporation
